DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

1. Applicant's election with traverse of claims 1-11, 14-20, 34 in Paper No. 7 is acknowledged. The traversal is on the ground(s) that the search would overlap and the applicant is a non-profit educational institution. This is not found persuasive because in the first instance, it is well established that a serious burden exists in the differing issues that arise during the prosecution of the distinct statutory classes of invention. In the second instance, the examiner is not aware of any law or rule regarding restriction/election practice that applies only to non-profit educational institutions. The requirement is still deemed proper and is therefore made FINAL.

2. This application is in condition for allowance except for the presence of claims to an invention non-elected with traverse in Paper No. 7. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.

DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of claims 1-11, 14-20, 34 in Paper No. 7 is acknowledged. The traversal is on the ground(s) that the search would overlap and the applicant is a non-profit educational institution.. This is not found persuasive because in the first instance, it is well established that a serious burden exists in the differing issues that arise during the prosecution of the distinct statutory classes of invention. In the second instance, the examiner is not aware of any law or rule regarding restriction/election practice that applies only to non-profit educational institutions.

The requirement is still deemed proper and is therefore made FINAL.

2. This application is in condition for allowance except for the presence of claims to an invention non-elected with traverse in Paper No. ***. *Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.*

The prosecution of this case is closed except for consideration of the above matter.

Allowable Subject Matter

3. Claims 1-11, 14-20 and 34 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Although the MBE method of deposition of quaternary thin epitaxial films was known in the art, that art did not disclose or suggest the use of the claimed gaseous precursor (H₃YCN) in such a MBE processes. The examiner acknowledges the known prior existence of the gas composition. However, there was no prior art suggestion to use the specified gas as the precursor (see Kern et al. in Journal of Materials Research 1993 and 1998 from IDS).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
